The Bricklayers Strike in New York.

The New York Herald says the master masons met on Friday and again resolved to stand firm against the eight-hour system. The reports received from various sources as to how far some of the bosses have concluded to accede to the demands of the men were declared to be satisfactory. In the evening a committee of the masters met similar committees from all master mechanics connected with house building, voted to publish an address, and debated a

THE STEINWAY SUIT.

Another Mary Ann Boker Case-Cupid and a toachman. A peculiar case of love and legal war is just now occupying the Sapreme Court. Some years ago one of the New York Stein ways fell in love with and married a young girl, whom about three years since he lett a widow with it. The local funds are not yet exhausted, but even were it otherwise, it is said they have \$31,000 to fall back upon, donated to them by the various affiliated societies under the juristwo interesting children. After his death she retired to Staten Island, and there saw and admired the bandsome coachman of a neighbor-

This love affair coming to the notice of the Stemways, they immediately, by urgent en-treaty, started the amatory widow off to En-rope; but, before she left, she was privately married to the "poor young man," who has been the innocent cause of all these troubles. She had not been long in Germany, when some German official demanded from her the oustody of her children, with the alternative of having all the funds, left her by the will, withheld by the Stein ways, her trustees. Placed in this predicament, she was obliged to give them up, but immediately sailed for this city as a second cabin passenger to initiate this suit.

The suit is to show cause why the children should not be given up to Mrs. Oakes, and the money due her from the estate paid. The children are said to be in delicate health, and to need a mother's care. The case was argued

peech of General F. P. Blair in Accepting the Democratic Nomination. The following remarks were made by Gen Blair, at Tammany Hall, New York, on Friday night last, in reply to the announcement of his nomination for the Vice Presidency by the committee appointed by the National Democratic Convention.

l accept the platform of resolutions passed by the late Democratic Convention, and I acept their nomination with feelings of the most profound gratitude. [Applause.] I accept the nomination with a feeling that your nomination for the Presidency is one which will carry us to certain victory, [applause.] and because I believe that it was the most appropriate nomination that could be made by the Democratic party. The contest which we wage is for the restoration of constitutional government, and it is appropriate that we should make this contest under the lead of one who has given his life to the maintenance of constitutional government. [Applause.] We make this contest for the restoration of those great priciples of government which belong to our race, [applause,] and it is most ap-propriate that we should select for our leader a man not in military life, but who has devoted himself to civil pursuits, one who has given himself to the understanding of our Constitution and its maintenance with all his powers of reason and judgment. I have said hat the contest before us was one for the restoration of our Government. It is also for the restoration of our race. [Uproarious ap-plause.] It is to prevent the people of our race from being exiled from their home, exiled for themselves and for their children, to prevent them from being driven out in exile and trodden under foot by an inferior and semi-barbarous race. [Renewed applause.] In this contest we shall have the sympathy of every man that is worthy to belong to the white race. Renewed applause.] What civilized people on earth would refuse to associate with themselves in all the rights, and honors and digni-Johnson! What country on earth would fail to do honor to those who, fighting an erroneous cause, yet distinguished themselves by a gallanty, never surpassed? A single objection would prevent its being introduced that day. Mr. Van Wick, of New York, constantly objected. I earnestly appealed to him to withdraw the objection. He persisted until I left the House. He then permitted a very tame resolution, barely appointing a com-mittee, to be passed. I am anxious that this mistake should be corrected, for I should be a shamed of such prejudice against the dead. I have no such prejudice. I would be glad if you could have this statement in some way communicated to the public, through Demo cratic organs, as I do not wish Mr. Buchanan's friends to believe so mean a thing. The Whisky Ring-A Bold Movement Stopped-Arrest on Charges of Perjury. [From the New York Post.]

A movement by the "Whisky Ring" is now undergoing investigation before United States Commissioner Stillwell, of this city. The intended victim is Collector Bailey, of the fourth district, one of the most faithful and efficient mcers in the department. He has done more not only to break up the illicit distillation of whisky in this city, but throughout the United States, than any officer ever connected with the

The chief person engaged in this affair is Dr. Blaisdell, at one time president of the Metropolitan Distillers' and Recuffers' Association. organized last summer under the auspices of Deputy Commissioner Messmore, which association volunteered to collect the whisky tax in this city, if the management of this matter was left to its supervision. He was also pro-prietor of the Blaisdell distillery, which was forfeited through the direct action of Mr. Bai-ley, and he is now under indictment on a criminal charge of defrauding the Government through proceedings instituted by that

The rotlowing is an outline of the plan pur-sued by the "Whisky Ring" to effect the re-moval of Collector Bailey. During the past few months certain officers of the Internal Revenue and Treasury Department in this city in connection with Dr. Blaisdell and other persons belonging to the "Whisky Ring," raised large sums of money, and employed notorious spurious bond makers to suborn witnesses to make affidivits against Collector Bailey, charging by with having been bribed by them

make affidavits against Collector Bailey, charging him with having been bribed by them.

About two weeks ago the Collector learned of the movement, and requested Captain F. C. Tapley to investigate it.

Captain Tapley set about the work, and soon got complete evidence of the transactions of the conspirators. They were followed to the office of the special Treasury agent Belknap, at 71 Broadway, and seen to make eath before that officer, in company with Blaisdell, who had his office with Belknap. It was also ascertained that the men who swore were paid certain sums of money for so doing. Subsequently they were taken before Commissioner Osborn to repeat the affidavits filed on this perjured and suborned testimony; warrants were procured against Collector Bailey, the intention of the "ring" being to procure his arrest, and under cover of the odium of his position to procure his suspension or removal from

to procure his suspension or removal from Through the activity and skillful conduct of Captain Tapley, Mr. Bailey was advised of all their movements, and as soon as each man had sworn before the Commissioner he was arrested for perjury, under warrants issued by Com-missioner Stillwell, and ledged in Ludiow street jail, without the knowledge of his companions in crime. Meanwhile Collector Bailey went before Commissioner Osborn and gave bail for his appearance for examination, which will not likely be a tedious one, as all the witnesses against him have been committed for perjury, and, with most of those who were direcily engaged in the plot, are confined in Lud low street jail or in the county prison. Several of the criminals have made full con-fessions of their guilt. The whole affair will be made public in a day or two and the names of all concerned be given, with the facts.

By The Cleveland Herald says that there are rumors that another investigation similar to that which discovered the manner of Win Parquet's death, is soon to be made in that city. If the half of what is suspected prove-true the Victor case will be a poor sensation compared to that in store.

is, that it is a more reliable and far more effectual
